### A TRIMMER.

We have seen no criticisms on the course of Governor Montague in connec tion with the strike of the employes of the Richmond Power and Passenger Company. Tois lack of criticism may, perhaps, be occ sioned by reluctance on the part of the press and its contributors to complain of the conduct of the Chief Executive of the ginia, the thought, evidently, being sug-State, or it may arise from a well-laid g-sted by the Richmond mobs, scheme of himself and his partisan supporters to keep him as clear of the trouble as possible. If he should take the active part in settling the trouble which his official position demands and the peculiar conditions call for, his future political asprations might be seriously injured. Perhaps the Governor proclaimed the Constitution as a matter of official duty. We would like to inquire, what has he been doing in the way of performing his that the Republicans are afraid of Mr. duty as required by Sec. 73 of the Constitution, above quoted?

We do not recall but one instance in which the Governor has been emphatically heard from since the strike began. A report got out that he had talked by 'phone with one of the manufacturing Saturday, as usual. His Excellency quick- beard in that land, ly denied the report, and then went into his hole, dragging the hole in after him.

There has been launched at Eufaula, I T., the first issue of the first daily paper ever printed or published by an Indian. The editor is Alexander Posey, known as the "Creek Bard," a member of the Creek tribe of Indians, who already ha achieved distinction in the newspaper field as editor, poet and humorist. He is one of the prominent men of the Creek nation and took an active part in the convention held at Eufaula recently called or the purpose of formulating an Indlan plan for statehood.
